## PRESS RELEASE

### AUTOMATION OF ANNUAL PRE-RETIREMENT VERIFICATION AND ENROLMENT EXERCISE FOR RETIREES/PROSPECTIVE RETIREES OF FEDERAL GOVERNMENT TREASURY-FUNDED MINISTRIES, DEPARTMENTS AND AGENCIES (MDAs)

#### Introducing the Enrolment Application

The National Pension Commission (PenCom) has developed an online application which will automate the Annual Pre-Retirement Verification and Enrolment Exercise. The Application has the capabilities to register, verify and enroll prospective retirees of Treasury-funded Federal Government MDAs. Accordingly, the **online Enrolment Application** would be hosted on PenCom website [www.pencom.gov.ng](http://www.pencom.gov.ng)

#### Pilot Run on the Enrolment Application

As a prelude to the formal deployment of the online Enrolment Application, the Commission would commence a **Pilot Run** of the exercise from 2<sup>nd</sup> to 20<sup>th</sup> August 2021 with selected MDAs in the six Geo-Political Zones and the Federal Capital Territory (FCT) in order to test-run the application with real-time data.

The application would **GO-LIVE** after the conclusion of the pilot run on a date to be announced by PenCom in due course.

#### Pre-Requisite for Enrolment

Affected retirees/prospective retirees are required to undergo the data recapturing exercise with their respective Pension Fund Administrators (PFAs) as this is a pre-requisite for the online Enrolment. This entails updating their personal details and providing their National Identification Number (NIN). However, retirees/prospective retirees who have already undergone the data recapture exercise with their PFAs are not required to repeat the exercise.

**SIGNED: MANAGEMENT**
