

- ✓ The online Pension Contribution Remittance System (PCRS) replaces the manual process of employers remitting their employees' pension contributions.
- ✓ Employers can now upload employees' schedules and make payments of their pension contributions online from the comfort of their homes or offices.
- The PCRS is **FREE!** and comes at no cost to the employer.
- The PCRS ensures that pension remittance schedules uploaded by employers are **ACCURATE**.
- Employee Personal Identification Numbers (PINs) and Pension Fund Administrators (PFAs) are **VERIFIED** with PenCom before remittances are processed.
- Employers can **CHOOSE** from multiple Payment Solution Service Providers (PSSPs) to facilitate their pension contribution remittances.

The approved PSSPs are listed below;

Payment Solution Service Providers (PSSP)	Website
